DNA is the voice of quality dermatology health care.

Gain all the necessary information you need to stay current in order to give your patients the best quality care.

Be empowered and make informed decisions that bring more efficiency to your practice, by learning about the latest and greatest in dermatology products and services. ( Hint: Our annual exhibition quilt hall is the hot spot for dermatology product discovery)

In addition, take action and volunteer on DNA committees. A volunteer leader’s personal passion for the group’s mission is contagious and motivates.

DNA’s Dermatology Education Education Series opens the door to new opportunities – from the written word to online education. As a DNA member, you will gain access to our renowned publication, the Journal of Dermatologic Nursing’s Annals (JDNA), and top-notch continuing education programs for NPs, RNs, LPNs, Medical aestheticians and other healthcare professionals.

DNA is the place to meet and learn from others in different clinical settings: outpatient, private practice, academic, government, etc. and specialties across, including; dermatological surgery, pediatric dermatology, etc. Plus, our members love to meet and help those who are new to the field, as well as those who have been working in dermatology for more than 20 years!

The fastest growing group in our membership is the Nurse Practitioners, 25% of DNA’s membership consists of NPs, and other members also include Registered Nurses, Medical Assistants, and Licensed Practical Nurses. DNA offers a diverse member mix and welcomes you and your professional team to join us.

DNA promotes excellence in dermatologic health care.

Be a part of DNA today. Membership Categories

To suit the individual needs of our members, DNA membership is divided into six categories:

- **Nurse members** are licensed, registered, practical or vocational nurses involved or interested in the dermatology nursing care of patients.
  - Annual membership for Registered Nurse and Licensed Practical Nurses is $95.
- **Associate members** are members of related health care fields who are involved or interested in the care of dermatology patients. Associate members have all DNA benefits except voting and the privilege of serving in an elected position.
  - Annual membership for Associates is $75.
- **Student members** are defined as individuals studying to be an entry-level nurse, NP, or who have not achieved their nursing degree. Student members receive many DNA benefits electronically, such as the bi-monthly Focus Newsletter, weekly DNA Model Billform e-digest, and bi-monthly member updates. Student members will also receive special registration rates to all DNA events. To join the DNA as a Student Member, please visit the “membership” tab on dnanurse.org and submit a printed application.
  - (Student membership is free for the 1st year proof of student status required)
  - Each additional year is $95 (proof of student status required).
- **Corporate members** are individuals or organizations interested in supporting the purposes of DNA and in providing financial support to the Board of Directors. Corporate membership does not confer voting privileges or active participation in DNA activities.
  - Annual membership for Corporate members is $3,000.
- **Lifetime membership** maintains all the benefits of nurse members, to hold office and vote, without an annual membership fee. This recognizes the contributions of each past provider to the DNA.

**ALL SIGNS POINT TO DNA**

With more than 30 years of excellence in dermatological care, education, and certification, the Dermatology Nurses’ Association (DNA) is the longest-standing dermatology nursing association in the United States and Canada. Our 3,000 members cover all dermatologic specialties and all levels of education and certification.

What do our members rave about the most? The opportunity to connect with other professionals they would have never met before and the educational opportunities.

DNA provides. With a DNA membership, you will gain access to a global community of dermatology professionals, and a local network to tap into...
