

Patient Problem Areas

I. Neoplasms

- Actinic keratosis
- Basal cell carcinoma
- B & T-cell lymphomas/Sézary syndrome
- Dermatofibroma
- Immunosuppression--increased risk
- Keratoacanthoma
- Malignant melanoma
- Mastocytosis
- Squamous cell carcinoma
- Seborrheic keratosis

II. Papulosquamous and eczematous dermatoses

- Atopic dermatitis
- Contact dermatitis
- Eosinophilia pustular folliculitis
- Erythroderma
- Grover's disease
- Intertrigo
- Keratosis pilaris
- Lichen planus
- Lichen simplex chronicus
- Nummular eczema
- Pityriasis alba
- Pityriasis rubra pilaris
- Pityriasis rosea
- Pityriasis lichenoids chronicus
- PLEVA
- Pruritic urticarial papules & plaques of pregnancy (PUPPP) Psoriasis
- Seborrheic dermatitis
- Stasis dermatitis
- Xerosis cutis

III. Urticarias, erythemas, photosensitivities, purpuras

Drug eruptions

Erythema multiforme

Neurophilic dermatosis

Panniculitis

Polymorphous light eruption

Porphyria cutanea tarda

Pyoderma gangrenosum

Stevens-Johnson syndrome

Toxic epidermal necrolysis

Urticaria and angioedema

Vasculitis/Purpuras

IV. Cosmetic Dermatology & Photodamage

Elastosis

Favre-Racouchot disease

Lentigines

Poikiloderma of Civatte

Telangiectasias

Xanthomas

V. Adnexal Diseases

Acne

Acne keloidalis

Hidradenitis suppurativa

Hyperhidrosis

Perioral dermatitis

Rosacea

Sebaceous hyperplasia

VI. Infections, Infestations, & Bites

- Anthrax
- Candidiasis
- Cellulitis/Erysipelas
- Condylomata acuminata (HPV)
- Cutaneous larva migrans
- Furuncles/Carbuncles
- Gianotti-Crosti syndrome
- Hansen's disease
- Herpes simplex virus
- Impetigo
- Insect bites & stings
- Leishmaniasis
- Lyme disease
- Molluscum contagiosum
- Pediculosis (capitis, corporis, pubis)
- Psychodermatosis
- Scabies
- Smallpox
- Staphylococcal scalded skin syndrome
- Syphilis
- Tineas
- Verrucae

VII. Pigmentary/Vascular Disorders

- Disorders of hyperpigmentation -diffuse, circumscribed, linear, reticulated
- Disorders of pigmentation
- Hemangiomas
- Melasma
- Nevi
- Port-wine stain and associated syndromes
- Reticulated papillomatosis of Gougerot-Carteaud
- Sturges-Weber syndrome
- Vitiligo

VII. Hair, Nails, & Mucous Membranes

- Alopecia
- Behçet syndrome
- Lichen sclerosus et atrophicus
- Onychodystrophy
- Paronychia
- Sjögren syndrome

IV. Vesiculobullous, Autoimmune, & Connective Tissue Diseases

- CREST
- Dermatitis herpetiformis
- Dermatomyositis
- Ehlers-Danlos syndrome
- Epidermolysis bullosa
- Hypertrophic scars
- Keloids
- Linear IgA bullous dermatosis
 - Morphea
 - Pemphigoid
 - Pemphigus
 - Sarcoidosis
 - Scleroderma
 - SLE (discoid and systemic)

X. Genodermatoses & Systemic Disease

- Amyloidosis
- Cutaneous signs of systemic disease/Pruritus
- Darier's disease
- Hailey-Hailey disease
- Histiocytosis
- Ichthyosis
- ILVEN
- Keratoderma
- Neurofibromatosis and tuberous sclerosis
- Porphyrias
- Signs of drug abuse
